课程内容：
Keystone Summer Archway is designed for non-native English speaking students currently at or interested in attending Keystone Academy or schools similar in their academic standards and teaching philosophy, both in China and abroad. This 3-week program will be focused on preparing students to attend and excel in the IB MYP or DP while strengthening their academic use of English and honing their presentation, research, and discussion skills. By participating in activity-based learning opportunities both in and outside the classroom, students will be well prepared for Keystone Academy and its peer institutions, and also develop and strengthen a genuine interest in learning as a personal quality.
